

ENGINEERS WITHOUT BORDERS SECOND INTERNATIONAL REGIONAL MEETING

Larnaca, Cyprus, March 3-6, 2010
Palm Beach Hotel, www.palmbeachhotel.com

Sustainable Engineering in the Eastern Mediterranean Region

BEYOND BORDERS SOLUTIONS TO WITHOUT BORDERS PROBLEMS

Co-Organized by
EWB-International &
The Mortenson Center in Engineering for Developing Communities

With Participation from
EWB-Egypt, EWB-Jordan, EWB-Israel, EWB-Palestine, EWB-Macedonia,
EWB-Lebanon, EWB-Greece, EWB-USA, UNRWA, ASME-Int,
and other invited organizations

Engineers Without Borders International (EWB-I) in participation with its Eastern Mediterranean in-country member groups and local groups will meet in Larnaca, Cyprus in March 2010 to develop an action plan for collaborative initiatives in sustainable community development that cross borders in that region.

MEETING OBJECTIVES:

1. To *update* one another on community development projects and initiatives discussed/initiated at the 2009 meeting
2. To *learn* from existing initiatives in the region, build on those initiatives, and create new initiatives
3. To *experience* through discussion and hands-on workshops replicable projects and technologies
4. To continue to *strengthen and build* upon the collaboration between network members though joint projects and information sharing

Sponsors: Funding for this event has been provided by a private donor.
