

Joint API - EWB (Palestine, Jordan & Israel)

George Rushmawi

Liad Deri

Adam Abrahamson

Mohamad Jodeh

Sarah Rosenburg

Gershon Baskin

Hayel Amoush

Elad Orian

Mark Talesnick

Sanu Kaji

Kamal Ouda

Amer Rabaya

What is the objective, or what are we aiming at:

Development/placement of sustainable physical infrastructure (rest points / restroom*) along part/s of the API, in order to facilitate the development of sustainable techniques to small scale shelters, eco tourism in tri-lateral collaboration.

In parallel the introduction of the sustainable techniques to the local communities along the path.

Initial site will be in Jordan.

* Not yet dealt with, however will be considered in the future.

What do we need:

Materials, briquette press, briquette stove, instruction manual, in as many languages as we can create (Liad). (\$200)

Friends of the path, upkeep of the area including (Ramzi)

Architectural design () + approval of location building permit (Hayel opposite API and Jordanian Offices).

Materials, CEB press, need to get plans, need to make a machine (Amer and Mark, Kamal). \$2500

Need to obtain soil samples in order to check compatibility of the local soil/cement mix (plus water content). (Amer Mark Hayel)

Money ?

When can we do it

stage 1. meeting with API Jordan - EWB groups May June 2009.
\$150/student (10 + 10 +10)

stage 2. soil testing,
work on it with Hayel and George, Mark and Amer.

stage 3. Do the work in October 2009
